Foundation Friend

We hope you are enjoying a peaceful holiday season. If your fall was anything like ours, you were undoubtedly ready for some rest and relaxation. As we begin yet another trip around the sun, we find ourselves gearing up to hit the ground running in the New Year. Below we offer a sneak peek of a few programs coming online in 2017!

Happy new year!
Travis & Shawnie Bray
Founders, Hereditary Colon Cancer Foundation

Empowering Patients Program

In the past year, HCCF hosted four Hereditary Colon Cancer Family Days. The feedback from patients and caregivers was extremely positive and has inspired us to bring this educational content to an extended audience via online webinars. We anticipate hosting four webinars in 2017. (Registration coming soon...)

Hereditary Cancer Risk Resource

One of our primary goals in 2017 is to increase early diagnosis of hereditary cancer syndromes. This new online tool will allow undiagnosed individuals to assess their genetic risk and gather information about screening. Look for it just in time for family history month!
Advancing Care for Adenomatous Polyposis Conditions

As part of our commitment to increase the quality of care for our community, we will host eight webinars to educate medical professionals on important topics relevant to the care of people with Familial Adenomatous Polyposis (FAP), Attenuated Familial Adenomatous Polyposis (AFAP), and MUYTH-Associated Polyposis (MAP). (Registration coming soon.)

Make a Donation

Everything we've accomplished has ONLY been possible through your support. YOU can continue to make a difference. Help fund programs. Volunteer. Collaborate. Together we can improve life for families plagued by cancer! We look forward to collaborating and serving you in 2017!
